

## SPICTRA implements SAP H1 Business One ERP across the organisation.

- *The company migrated operations to SAP H1 Business One ERP solution in December 2019.*
- *The initiative is a part of the organisation's efforts towards technology implementation and digitisation to drive scale and innovation for enhanced customer engagement.*

**4<sup>th</sup> February 2020, Chennai:** Medihub Sciencetec Private Limited (SPICTRA), one of India's premier healthcare device companies, and part of AM International, Singapore announced the implementation of SAP H1 Business One enterprise resource planning (ERP) platform for its business operations. The initiative is part of SPICTRA's efforts towards technology implementation and digitisation to enhance customer engagement.

Congratulating the team on this successful endeavour, **Ashwin Muthiah, Chairman, AM International, Singapore** said, "The migration to the SAP H1 Business One platform adds to SPICTRA's competitive advantage. It will enable the team to streamline operations and accelerate decision-making with timely insights. At AM International, technology initiatives and digitisation will continue as key business enablers for being future-ready."

Specifically, SPICTRA aims to achieve the following goals through the organisation-wide integration of SAP H1 Business One ERP:

- Process flow simplification by presenting a stand-alone and integrated performance of all departmental activities.
- Cost and resource optimisation based on real-time financial insights.
- Supply chain transparency by enabling traceability from the manufacturing unit to the relationship managers and vendors.

SAP Business One is a globally-renowned ERP solution. It automates key functions across the organisation, including finance, operations, and human resources. The implementation of the ERP solution will boost SPICTRA's business with real-time data and better decision-making. By making core processes more effective and efficient, the initiative will deliver visibility across the organisation's ecosystem.
